

SVS SoundPath Speaker Level Subwoofer Adapter

Thank you for choosing SVS. The following instructions will assist you in connecting and using the SoundPath Speaker Level Subwoofer Adapter. More information and details can be found at: www.svsound.com/products/soundpath-speaker-level-subwoofer-adapter

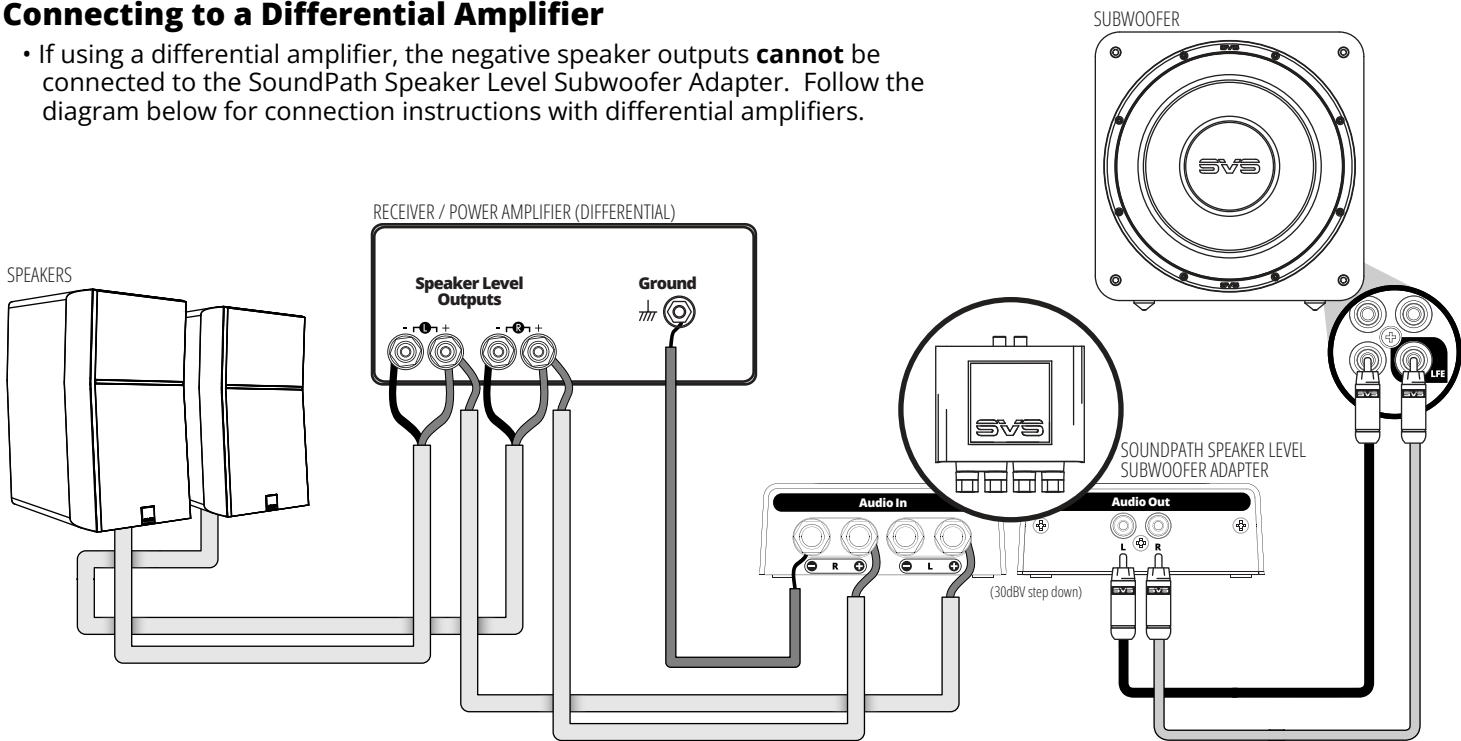

Connecting to a Receiver or Amplifier

- Make sure all connected components are switched off.
- Connect the Left/Right amplifier speaker level outputs to the corresponding speaker level inputs on the SoundPath Speaker Level Subwoofer Adapter.
- Be sure to follow the correct channel and polarity markings.
- Connect the Left/Right RCA outputs of the SoundPath Speaker Level Subwoofer Adapter to the Left/Right RCA inputs of the subwoofer.
- Power on the system – the SoundPath Adapter will start working immediately.

Connecting to a Differential Amplifier

- If using a differential amplifier, the negative speaker outputs **cannot** be connected to the SoundPath Speaker Level Subwoofer Adapter. Follow the diagram below for connection instructions with differential amplifiers.

NEED HELP? If you require assistance, please contact our Customer Service team by clicking the Support widget on our website to call, chat or email.

5-year Unconditional Warranty

SVS offers the industry's most comprehensive warranty on all our products. SVS warrants the SoundPath Speaker Level Subwoofer Adapter to be free from defects in the workmanship for five years from date of purchase.

This warranty and the SVS customer Bill of Rights can be viewed online at www.svsound.com/bill-of-rights.

Share Your Thoughts

At SVS, we strive to deliver products that surpass every expectation. After you have had an opportunity to install and audition your SoundPath Speaker Level Subwoofer Adapter, please feel free to share your comments and feedback at any of the below links.
