SONUS

MADE IN INDIA
since 1970

This is a major upgrade to the very successful 2000 Series.

The key innovations lie in new enclosures that provide improved bracing, hand picked drivers that provide better frequency extension and transients, and brand new crossovers for better transparency.

The range features 2 tower speakers, 2 centre speakers, a bookshelf and 2 surround models. Two colour options are available.

The new Sonus range is built to a level of sonic performance that will set a new standard in music and home theatre listening.
