

S3 Streamer

Balanced HiFi Streamer/DAC/Preamp

New Sonic Benchmark for Streamers Under \$1,000

01\ Introduction

Creating high-quality audio sources is a key step in completing the Fosi Audio ecosystem.

Since 2023, we've focused on the streaming category, refining our products around real-world listening scenarios and user needs.

S3, our first streamer, features Wi-Fi 6 and Bluetooth 5.3 for fast, stable connectivity. It supports major streaming protocols and allow you to play music directly from local NAS drives or online services. The Fosi Audio App enables simple, intuitive control and setup.

Powered by a flagship chipset and balanced circuit design, S3 delivers clean, detailed sound. With versatile digital and analog inputs and outputs, it serves not only as a streamer, but also as a digital transport, DAC, and preamp in one.

We welcome comparisons with leading brands such as WiiM and SONOS and value your professional feedback.

More streaming products are on the way as we continue to elevate the wireless listening experience.

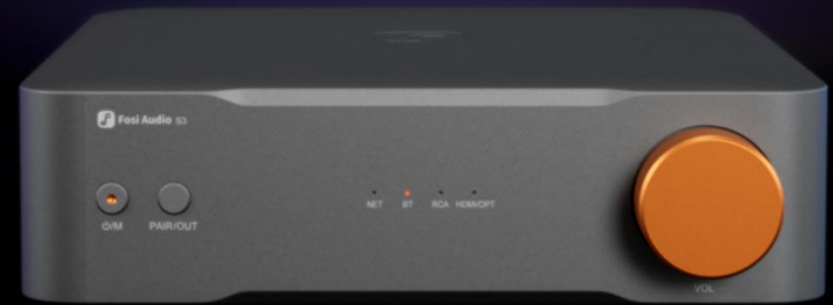

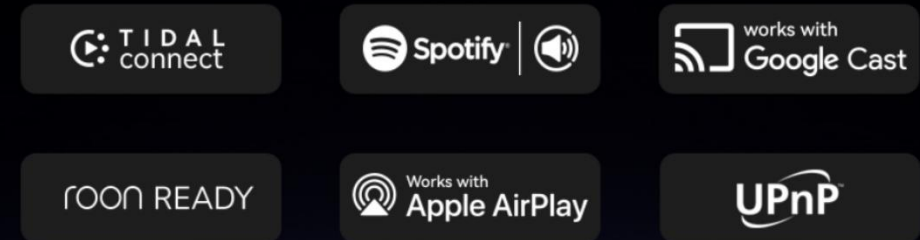

02\ Seamless Wireless Streaming

- Featuring dual-band 2.4GHz/5GHz Wi-Fi 6 and Bluetooth 5.3 with SBC and AAC support, the S3 streams music with rock-solid stability throughout your home.

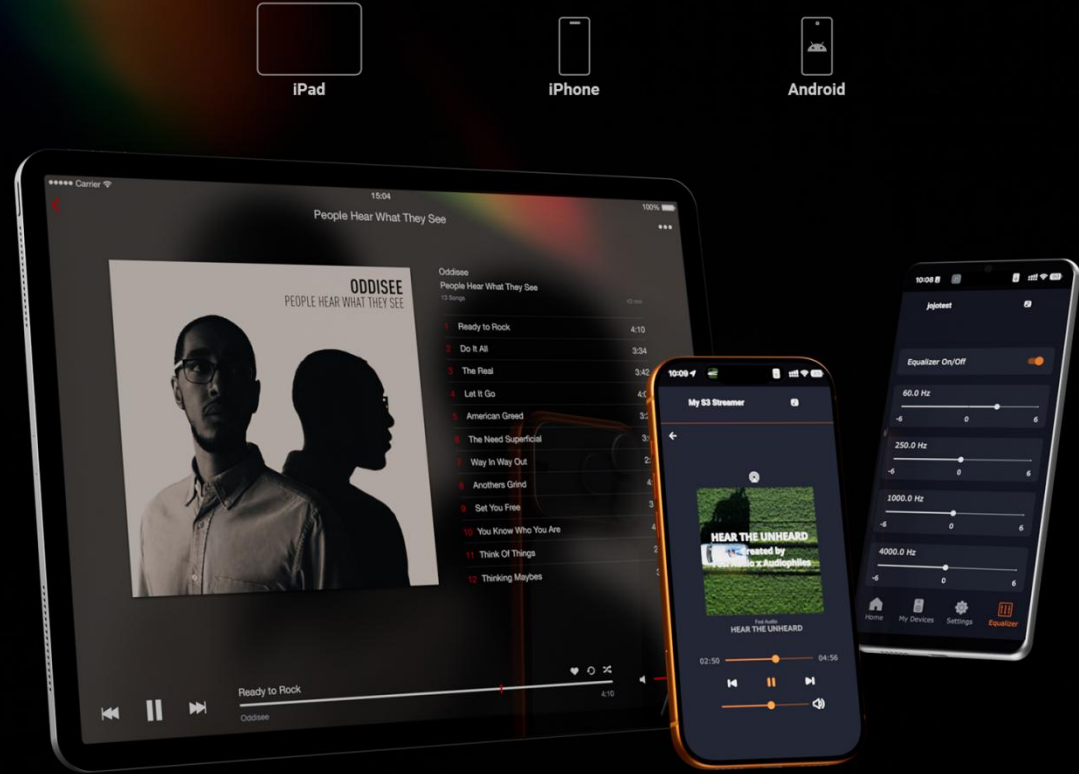

03\ Stream Your Favorites

- Supports wide range of streaming services such as **TIDAL Connect** and **Spotify Connect**. You can stream music directly from your music Apps to the S3 for seamless playback.
- Capable of up to **Roon PCM 32bit/384kHz** lossless audio, it delivers wired-grade sound quality with the convenience of wireless control.
- Note: Roon Ready certification is in progress and not yet supported. You can still use Roon via AirPlay 2 or Google Cast.

04\ Easy to Set Up

- The S3 is easy to set up and use with the **Fosi Audio App**, allowing you to control playback and effortlessly switch input/output modes.
- The app's built-in 5-band precision EQ lets you fine-tune the sound to match your preferences.

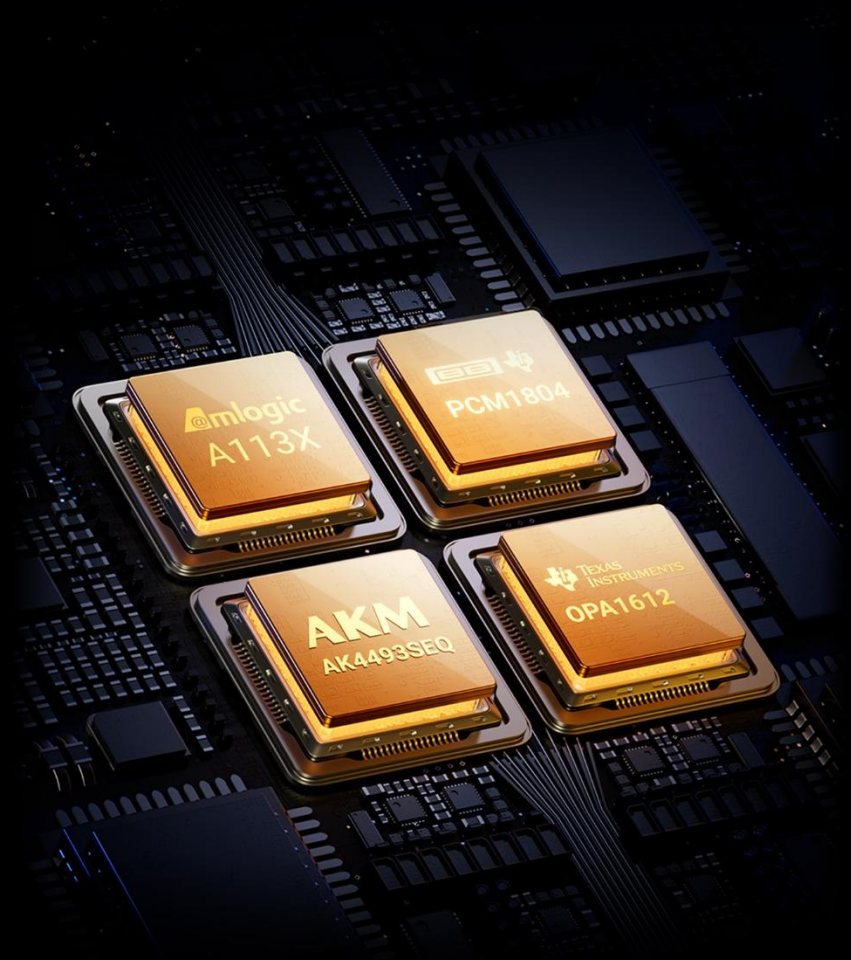

05\ Play Music Everywhere

- The S3 supports **multi-room synchronized playback** via Google Cast and AirPlay 2.
- With multiple S3 units placed in different rooms, you can easily control them from your phone or tablet and have all speakers play the same music simultaneously, letting your music follow you wherever you go while creating a seamless wireless multi-room audio system.

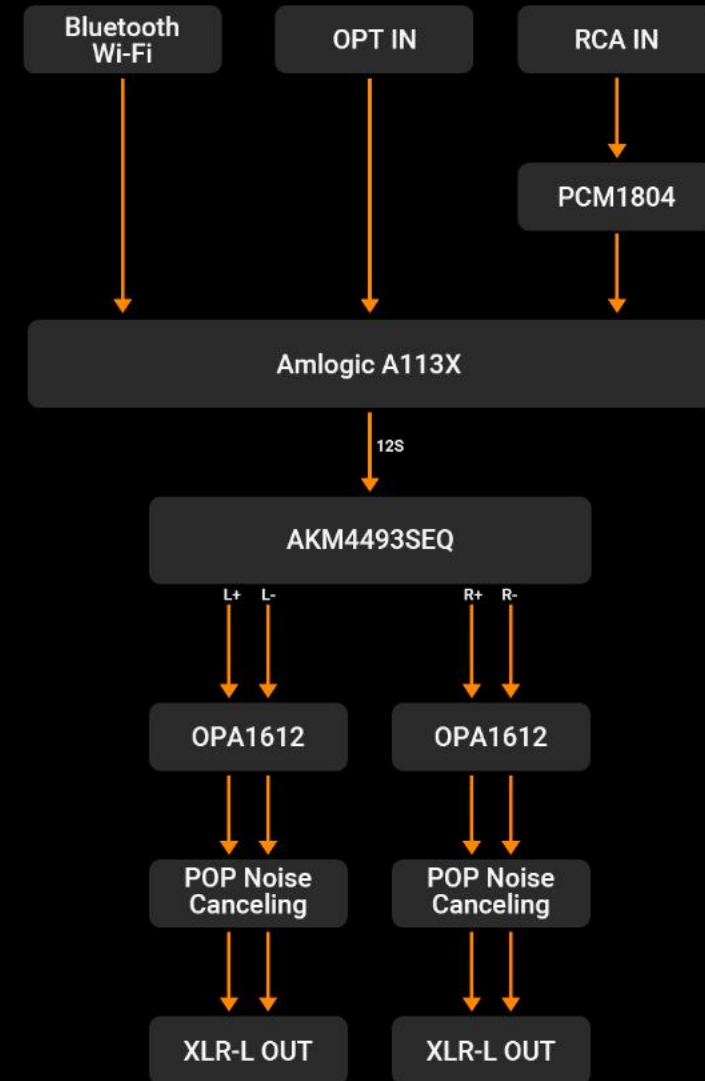

06\ Superior Audio Source

- S3 is powered by the **Amlogic A113X** streaming platform and a flagship **AK4493SEQ DAC**, with **OPA1612 op-amps** in a balanced design.
- With THD+N as low as 0.00018% and a SNR up to 120dB, it ensures a clean, accurate signal at the source—laying a solid sonic foundation for your HiFi system.

07\ Balanced Circuit Architecture

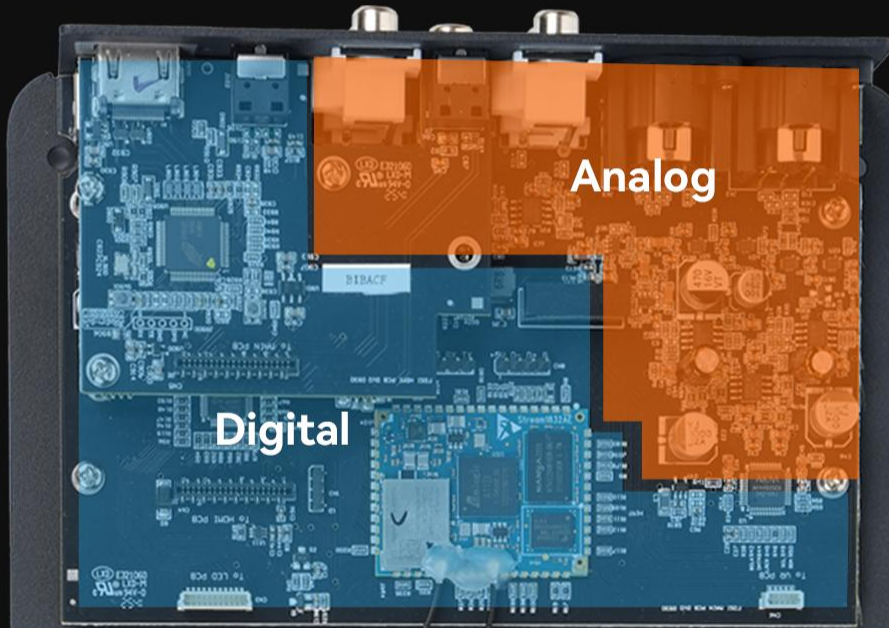

- The S3 features an independent AKM4493SEQ DAC with **dual op-amp differential amplification** and **XLR balanced outputs**, engineered for high-fidelity home audio.
- We recommend pairing it with the ZD3 and ZA3 to build a balanced system, which will bring a cleaner background, clearer layering, and a more expansive soundstage.

08\ Premium Components

- Carefully selected top-tier components ensure lower noise and a cleaner signal path, delivering purer, more refined sound with every listen.

Isolated Analog & Digital Architecture

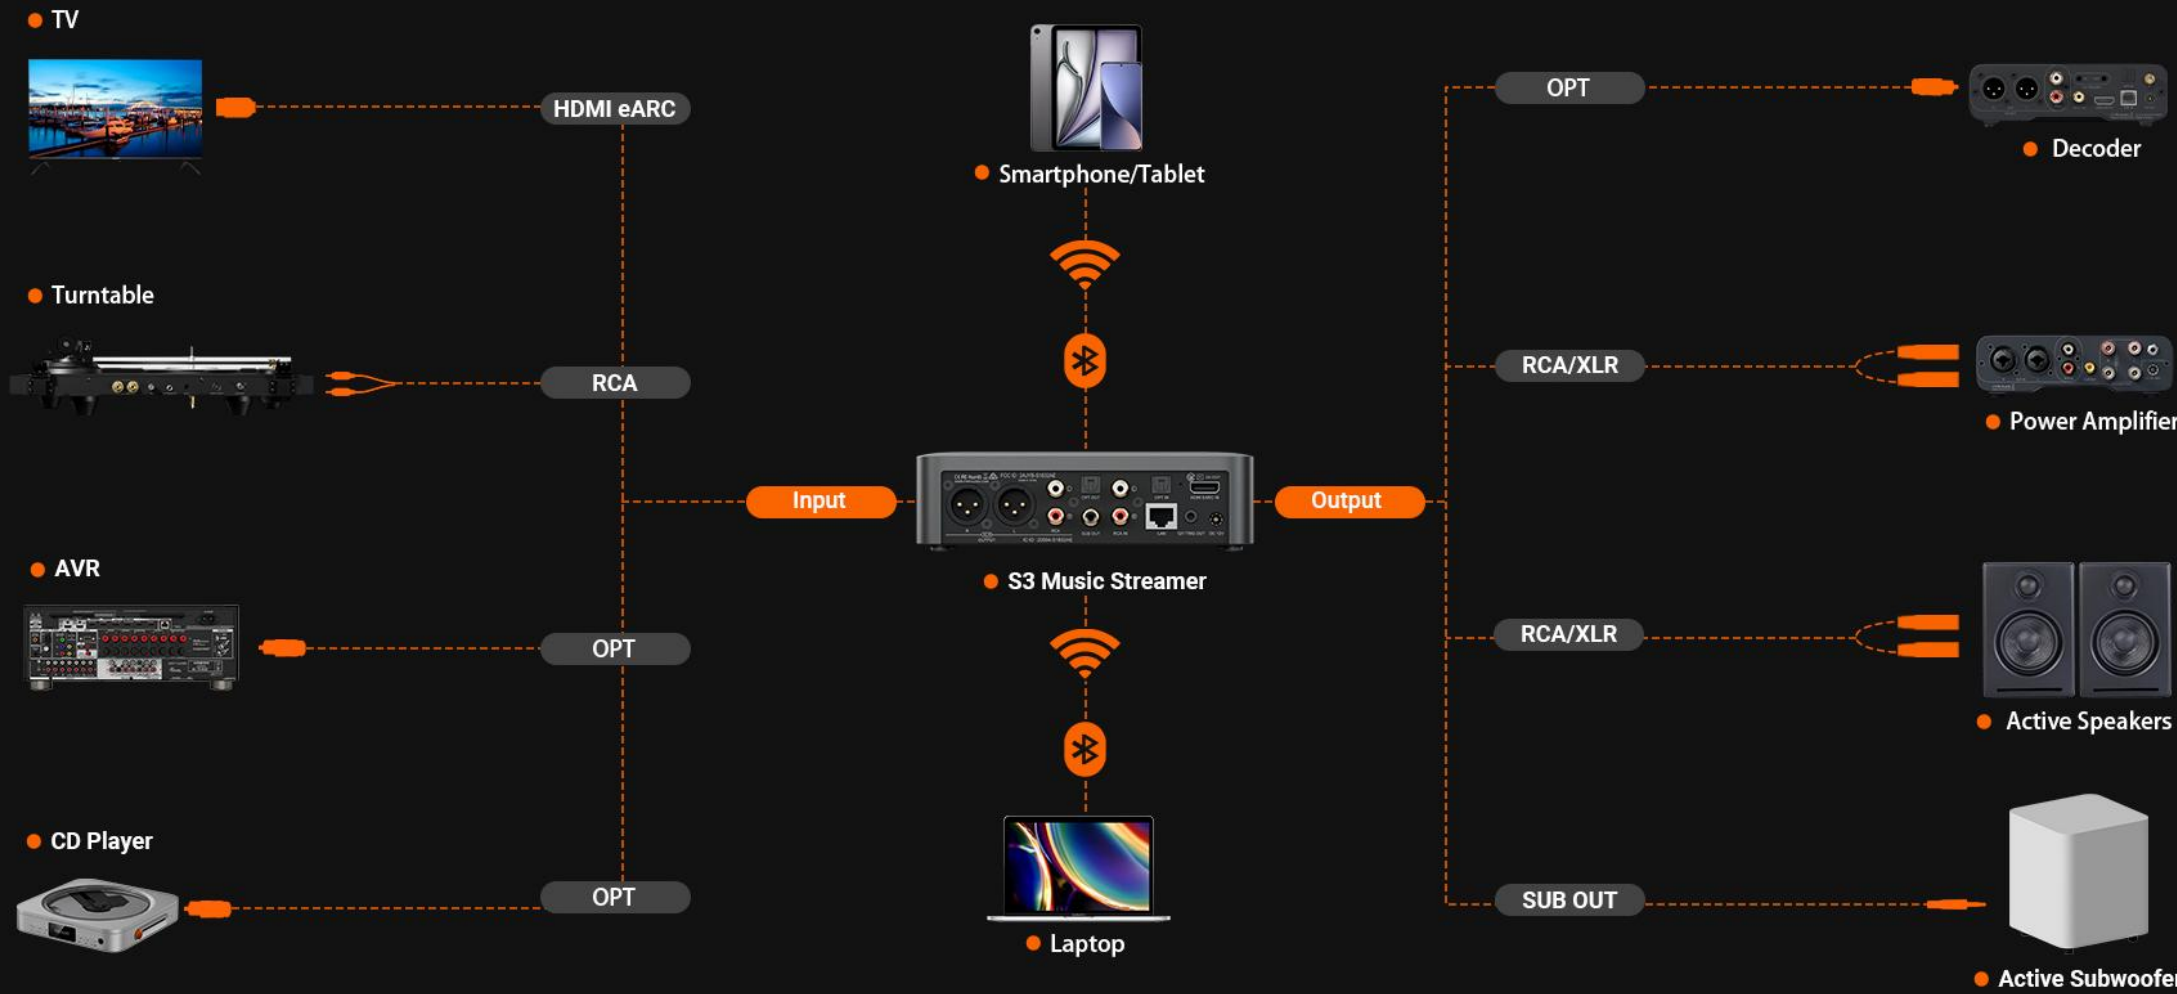

Japan ELNA Capacitors

Ultra-Low-Noise LDO

09\ Connect with Ease

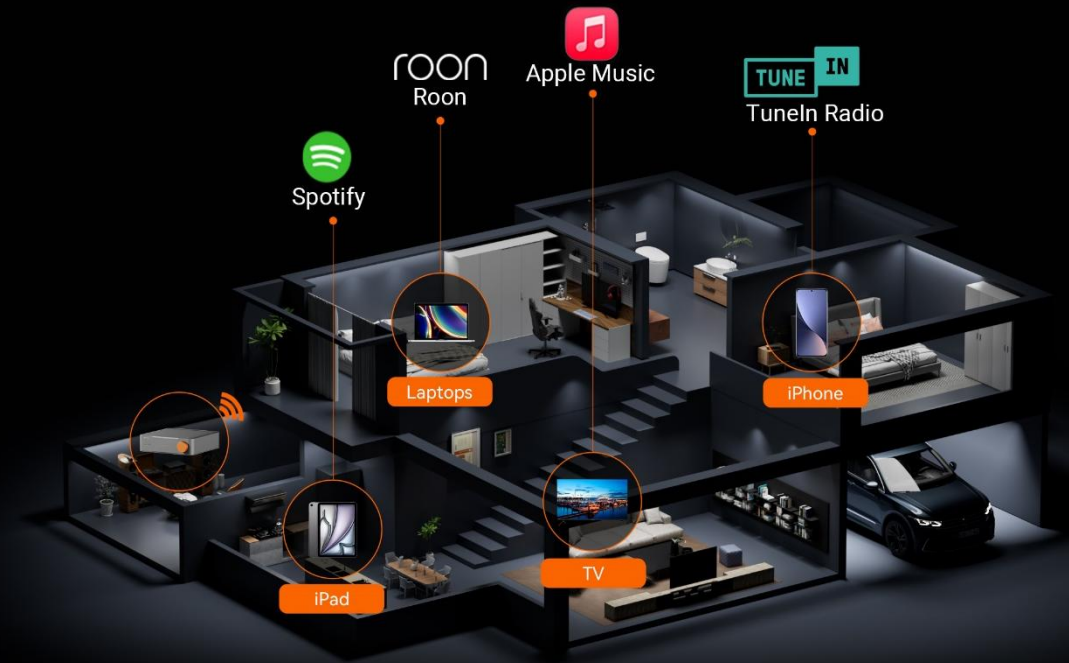

010\ Born for Home Audio

- With high-bandwidth **HDMI eARC** and a dedicated **SUB OUT**, it easily connects to your TV and active subwoofer to create an immersive 2.1 home theater experience.

- You can easily connect to the S3 from anywhere in your home and stream your favorite content, from radio to music.

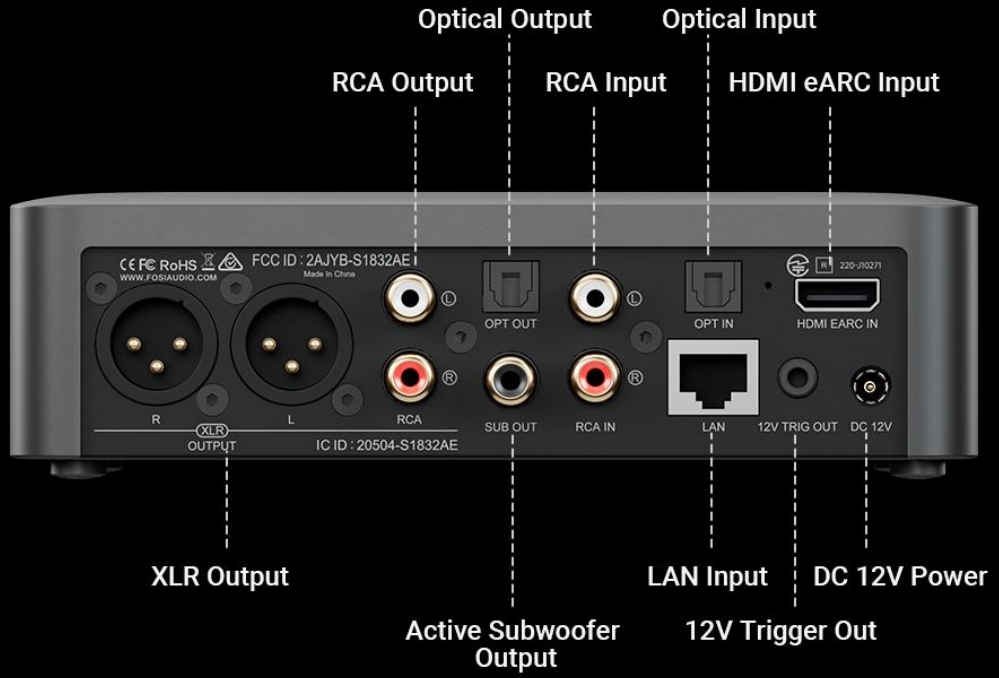

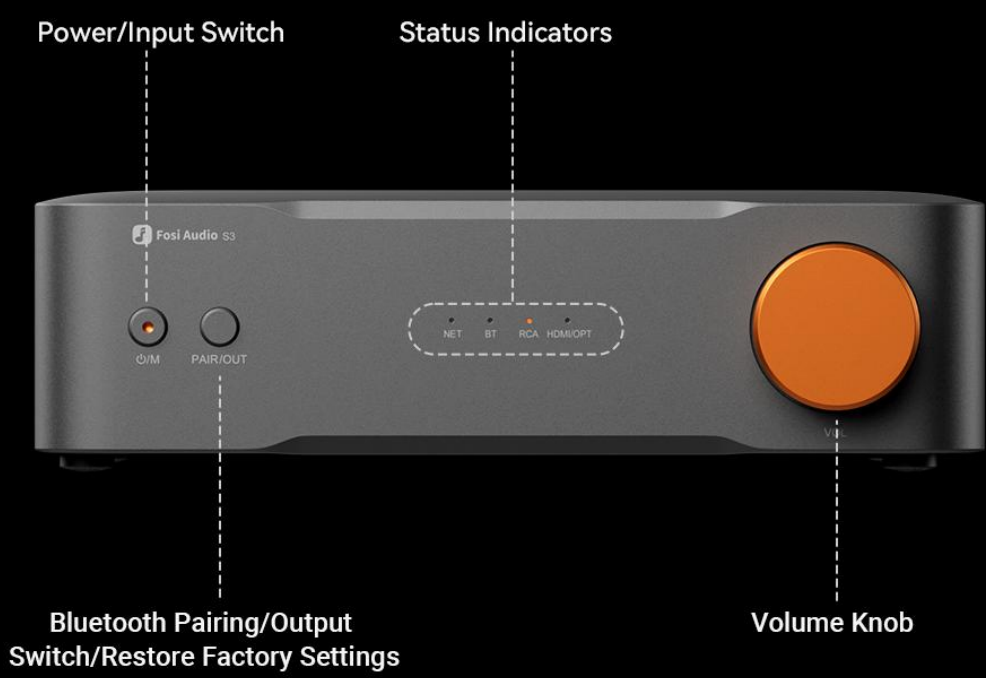

011\ Hassle-Free Use

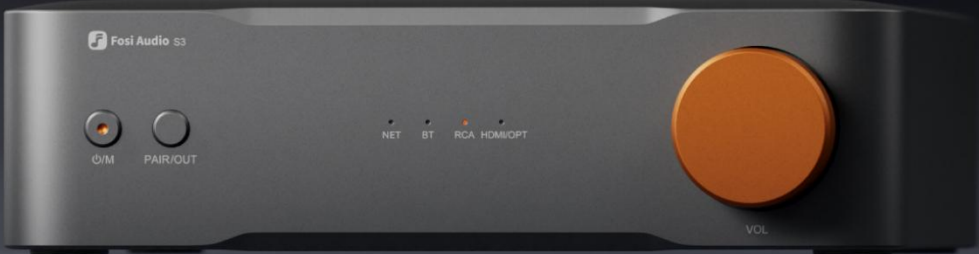

- Bottom Heat Dissipation
- 12V Trigger Power Sync
- Overcurrent & Overvoltage Protection
- Bluetooth Remote Control

012\ Panel Overview

013\ Specifications

Chipset	Amlogic A113X +AKM 4493SEQ + OPA1612	
Network	802.11 a/b/g/n/ac/ax dual-band Wi-Fi (2.4 GHz and 5 GHz) 10/100M Ethernet port	
Bluetooth	Bluetooth 5.3, A2DP, AVRCP, BTLE Support SBC and AAC codecs	
Remote Control	Bluetooth connectivity with a range of over 15 meters	
Power	DC 12V 1.5A	
Input Sampling Rate	OPT	PCM 24bit/192kHz
	BT	PCM 24bit/48kHz
	Google Cast	PCM 24bit/96kHz
	Airplay2	PCM 16bit/48kHz
	HDMI	PCM 24bit/192kHz
	Roon Ready	PCM 32bit/384kHz
	Wi-Fi	PCM 24bit/192kHz
Streaming Protocols	Google Cast, AirPlay 2, DLNA, Roon Ready, Spotify Connect, Tidal Connect	
SINAD	≥117dB	
SNR	≥120dB	
THD+N	≤0.00018%	
APP	Fosi Audio APP Download on Google Play and the App Store	
Dimensions	17.3 x 17.3 x 4.7cm (6.81×6.81×1.85in)	
MSRP	\$ 259	

About Fosi Audio

Established in 2017, Fosi Audio has been committed to developing, manufacturing, and selling high-quality HiFi audio products. The brand name FOSI is shaped by four core principles:

- Foresight, thinking further ahead;
- Openness, embracing users' voices;
- Sincerity, serving you wholeheartedly;
- Innovation, upholding technical excellence. We've crafted a home and personal HiFi system—including home audio amplifiers, preamps, DACs, speakers, headphones, headphone DAC amps, etc. Fosi Audio has quickly become a rising star in the HiFi audio world, earning recognition from audiophiles globally, with a distribution network spanning over 100 countries and trusted by millions of music enthusiasts across the globe.

We believe every sound matters. With cutting-edge innovation, we make every note clear, real, and full of emotion, empowering you to “Hear the Unheard”. Driven by our mission to redefine HiFi with unmatched value, Fosi Audio continues to fuel its passion for the HiFi industry, ramp up R&D efforts, and co-create new HiFi equipment with users. We pledge to bring more amazing HiFi gear with cutting-edge technology, innovative design, and premium quality to audiophiles worldwide.
